

**FLITZ**  
**The Fastest & Easiest Way to Restore Clarity to your Plastic Headlight Lenses & Light Bars.**

## How to Restore Headlight Lenses & Light Bars:

1. Use abrasive pads on headlights to clean off major deposits/debris.
  - For minor debris, use the 3M scuffing pad part #37448.
  - For major debris use a step process starting with 3M part #37447 then finishing with 3M part #37448.
2. Apply polish to headlight using finger or cloth.
3. Use Flitz ball (part #WB201) at a low speed to work in the polish.
4. After polish has been worked in, use the buff ball to polish. Ideal RPM's for the drill are in the 2000-2500 RPM range.
5. Use a cloth to wipe down extra polish and clean.
6. (Optional) Use Flitz wax (part #SW02806) to keep new look for up to 6 months

## Headlight Restoration Kits

**\$99.95**

# Protect after you Flitz!

## Universal Headlight Shield

*Keep your headlights like new!*

- Extend the life of your headlights with Husky Shield Headlite Guard. Our high impact resistant clear film defends your headlights from the sandblasting effects of sand, rock, salt and road debris.
- Keep your headlights from becoming hazy and yellow. Built-in UV inhibitors help your headlights remain clear by minimizing the oxidation caused by UV sunlight.
- Easy to install. Designed specifically for the do-it-yourselfer each pre-cut kit includes all the tools and instructions necessary for a smooth installation. Vehicle specific with no cutting or trimming required.
- Eliminate the expense of headlight replacement. Today's acrylic and polycarbonate headlights can cost in excess of \$400 to replace. By installing our Husky Shield Headlite Guard you will extend the life of your headlights, saving you hundreds of dollars in replacement costs.
- Useful on all vehicles – not just new. Perfect for applying after a headlight restoration or polishing kit.
