

Heavy Duty TIRE CHAINS

QUIK GRIP

- Traditional ladder style link chain
- Reinforced/V-Bar for added traction & durability
- Includes a built-in CAM tightening system so tensioners are not required (P/N ending in CAM)
- Available in sizes for heavy duty trucks, buses, graders, scrapers, & farm tractors

ALLOY RADIAL CHAIN

- Ladder style cable chain constructed with 0.525" of manganese alloy traction coils
- Provides superior traction, durability, & a weight savings of at least 50% compared to conventional "link" tire chains
- More durable than traditional low carbon steel link chains, light weight & easy to install
- The crossmember design allows for easy replacement without any special tools
- Intended for heavy duty truck applications

- Built specifically for durability, performance & easier handling
- Diagonal pattern crossmember design provides smooth, consistent, aggressive traction
- 68" diameter manganese alloy traction coils provide the lowest operating cost per mile of any SCC traction product
- Easy to install & included rubber tighteners adjust the product on the tire while the vehicle is in motion, so there's no need to stop & re-tighten
- Intended for heavy duty truck applications
